Interchange features prominently on the Croydon skyline, occupying an exciting position within the continuing transformation of Croydon town centre. Best in class office accommodation providing an excellent working environment with over 150,000 sq ft let to internationally renowned global brands.

Croydon continues to change, exceeding all expectations and Interchange is situated at the heart of it. Croydon Town Centre offers the best of both worlds: a wide variety of independent stores alongside established retail and leisure operators.

Trading since 1236, Surrey Street Market is the oldest known street market in the UK. Croydon Council is committing £500,000 for a programme of improvements to the market including improved lighting and paving.

Thanks to a £5.25bn regeneration programme, the economic heartland of south London will soon become a thriving must-visit destination not just within the UK, but in Europe.

At the heart of these transformative plans will be a £1.5bn retail and leisure complex by The Croydon Partnership.

C All Rail Ticke

Croydon is the most connected urban centre in the south east and is one of the only London Boroughs linked by multiple modes of public transport. Interchange is situated next to West Croydon station and only 8 minutes walk from East Croydon station via a purpose built footbridge.

Croydon houses two main stations, which provide services into Central London on the Tramlink, Overground and National Rail Trains.

Network rail propose to rebuild East Croydon station with two additional platforms and a larger concourse with improved facilities for passengers.

They also plan to physically separate existing surface (flat) railway junctions by constructing new flyovers and dive-unders to separate the tracks as they cross each other at Selhurst Triangle junction.

### **Network Rail's proposed expansion** plan for East Croydon will create a more reliable, frequent and faster rail service for passengers.

This redevelopment, due to commence in 2023, will mean much faster and more realiable and punctual train journeys for passengers. This in turn will enable more trains to run, increasing trains in service.

Improving the links to Gatwick Airport and the south coast will also create a boost to the regional and national economy.
